Career Description:

I am a passionate and detail-oriented Frontend Developer with hands-on experience in building responsive, user-centric web interfaces using modern technologies such as React, Next.js, and Tailwind CSS. My technical strengths lie in creating clean, efficient, and scalable UI components, integrating APIs, and optimizing performance for seamless user experiences. I have developed multiple full-stack and frontend projects using the MERN stack, focusing on real-world functionality and design precision. My career vision is to grow as a full-stack developer, contribute to impactful software solutions, and continuously enhance my skills through innovation, collaboration, and practical experience in the tech industry.
