PROFESSIONAL SUMMARY

I am a passionate and detail-oriented Frontend Developer with hands-on experience in building responsive, user-centric web interfaces using modern technologies such as React, Next.js, and Tailwind CSS. My technical strengths lie in creating clean, efficient, and scalable UI components, integrating APIs, and optimizing performance for seamless user experiences. I have developed multiple full-stack and frontend projects using the MERN stack, focusing on real-world functionality and design precision. My career vision is to grow as a full-stack developer, contribute to impactful software solutions, and continuously enhance my skills through innovation, collaboration, and practical experience in the tech industry.

WORK EXPERIENCE

Frontend Developer (Intern) at NGEN Circle (Pvt) Ltd

2024-01-08 - 2025-07-31 | Peshawar, Pakistan

Developed user interface components focusing on design, functionality, and responsiveness to enhance user experience.

- Implemented responsive UI designs using HTML, CSS, JavaScript, Bootstrap, and Tailwind CSS.
- Collaborated with team to develop dynamic web applications using React.js and MERN stack.
- Utilized Git and GitHub for version control and project collaboration.

Frontend Developer at Ali Town Tokar

2025-08-01 - 2025-09-01 | Lahore, Pakistan

Working on projects integrating Shopify and Builder.io concepts to deliver efficient frontend solutions.

- Developing and maintaining frontend components to improve user interaction and overall project functionality.
- Applying modern frontend frameworks and tools to optimize website performance.
